

# Code

```
1 pub fn compute_total(values: &[i64]) → i64 {  
2     values  
3         .iter()  
4         .copied()  
5         .filter(|value| *value > 0)  
6         .fold(0, |acc, value| acc + value)  
7 }
```
